Land Availability

61% of developable land is under-developed or undeveloped

Regional Perspective

Planning for Otay Mesa

- 9,300-acre community of the City of San Diego
- Comprehensive community plan created in 1981
- Numerous minor amendments since 1981
- Only significant amendment was to designate the City's Multiple Species Conservation Plan through Multiple Habitat Preservation Area open space in 1997

History of the Community Plan Update

- Need for an update identified in late 1990s
- Work on a comprehensive update began in 2001
- Resource constraints resulted in diminished activity
- Otay Mesa Planning Coalition is funding technical support to accelerate the update

Role of Community Plans

Overview of Public Process Through Today

- **2001:** Update commences
- **2002:** Community workshop #1
- **March 2004:** Olay Mesa Planning Coalition formed
- **May 2004:** Scoping Meeting
- **August 2004:** Stakeholder workshops
- **June 2005:** Concept Plan available
- **August 2005:** Planning Commission workshop
- **August 2005:** Public and property owner workshop #2
- **October 2005 – January 2006:** Roundtables
- **March 2006:** Plan scenarios available
- **June 2006:** Public and property owner workshop #3
- **July 2006:** Revised plan scenarios available
- **Ongoing:** Regular meetings held with the Olay Mesa Planning Group
- **Ongoing:** Stakeholder outreach

Roundtables—Principal Topics

1. Industrial Land—Types, Supply and Capacity
2. Parks
3. Schools
4. International Trade
5. Brown Field & Cross Border Terminal
6. Local Infrastructure Needs
7. Truck Traffic, Air Quality & Housing
8. SR-905, SR-125 and SR-11 Corridor Planning and Funding Considerations
9. Border Crossing Issues
10. Housing

Goals of the Plan Update

- **Regional Center:** enhance Otay Mesa's role in the region
- **Create Complete Places:** balanced, integrated mix of uses within and across Otay Mesa
- **Transit:** coordinate land use planning to support high frequency transit service
- **Build Needed Infrastructure:** include development that can finance infrastructure improvements

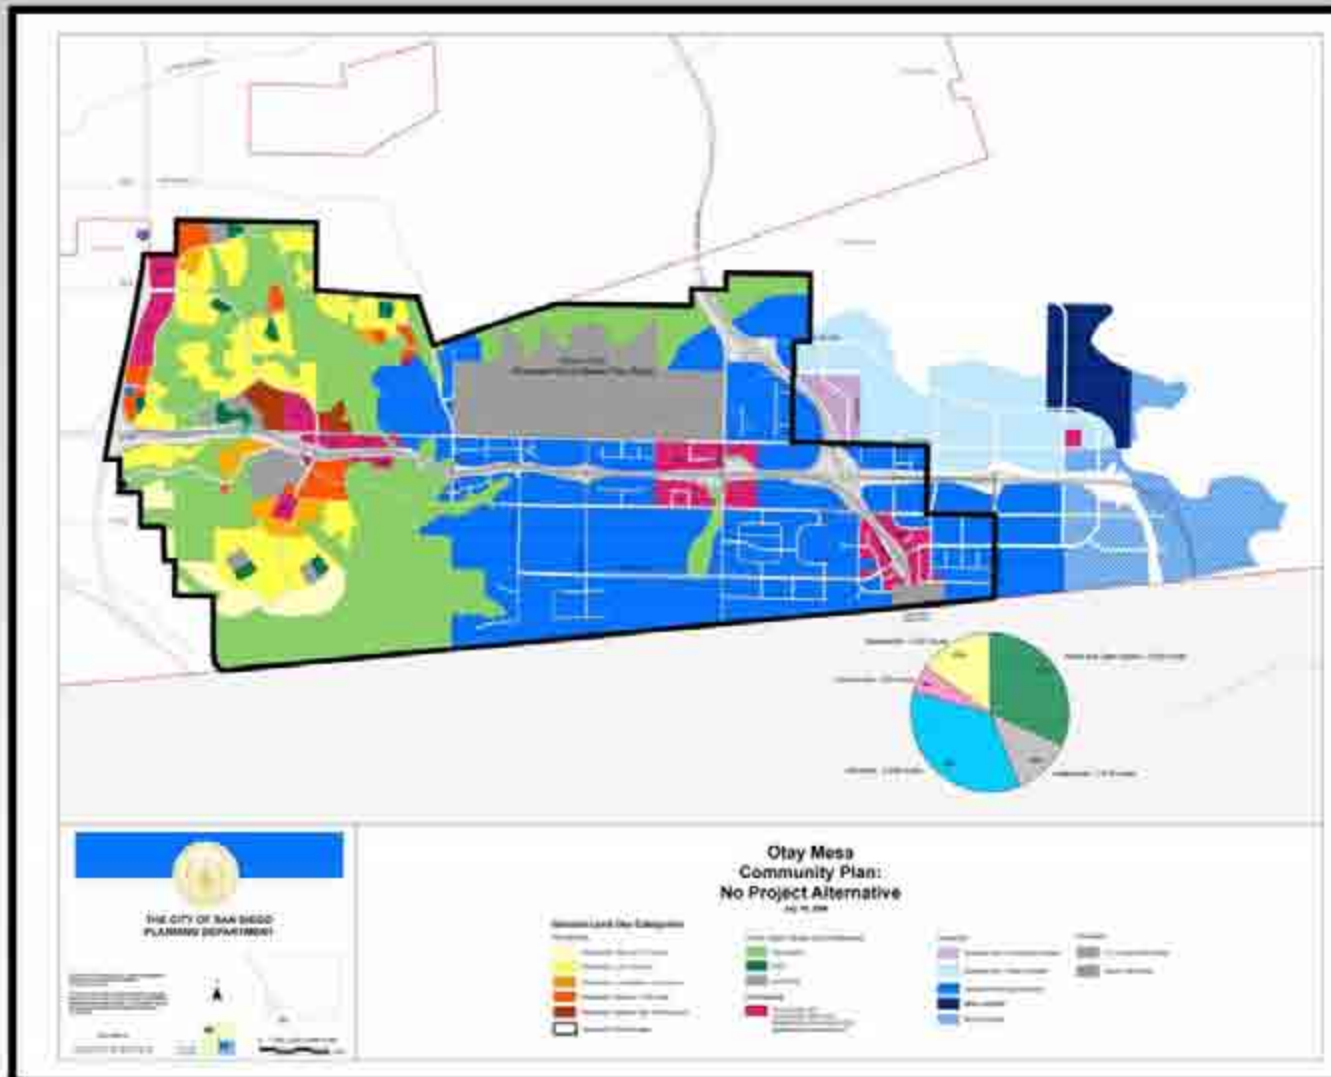

Goals of the Plan Update

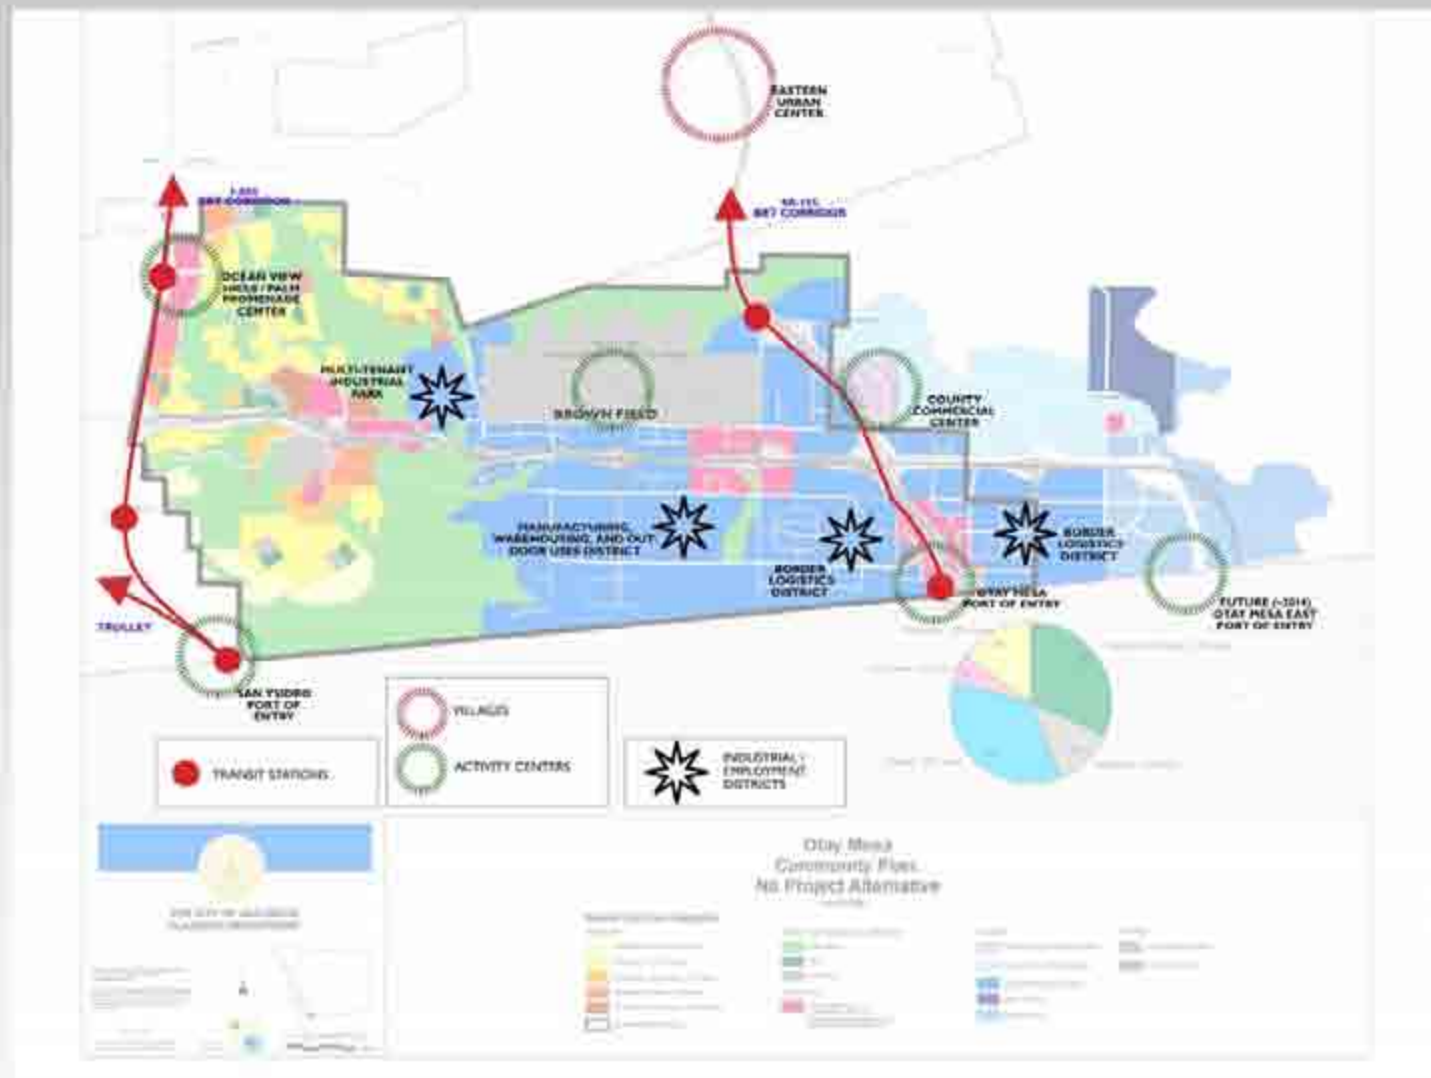

- **Diversify:** broaden the industry profile and increase employment
- **Industrial Capacity:** protect and enhance
- **International Trade:** support activities
- **Housing:** provide more housing and meet workforce needs

No Project Alternative

No Project Alternative

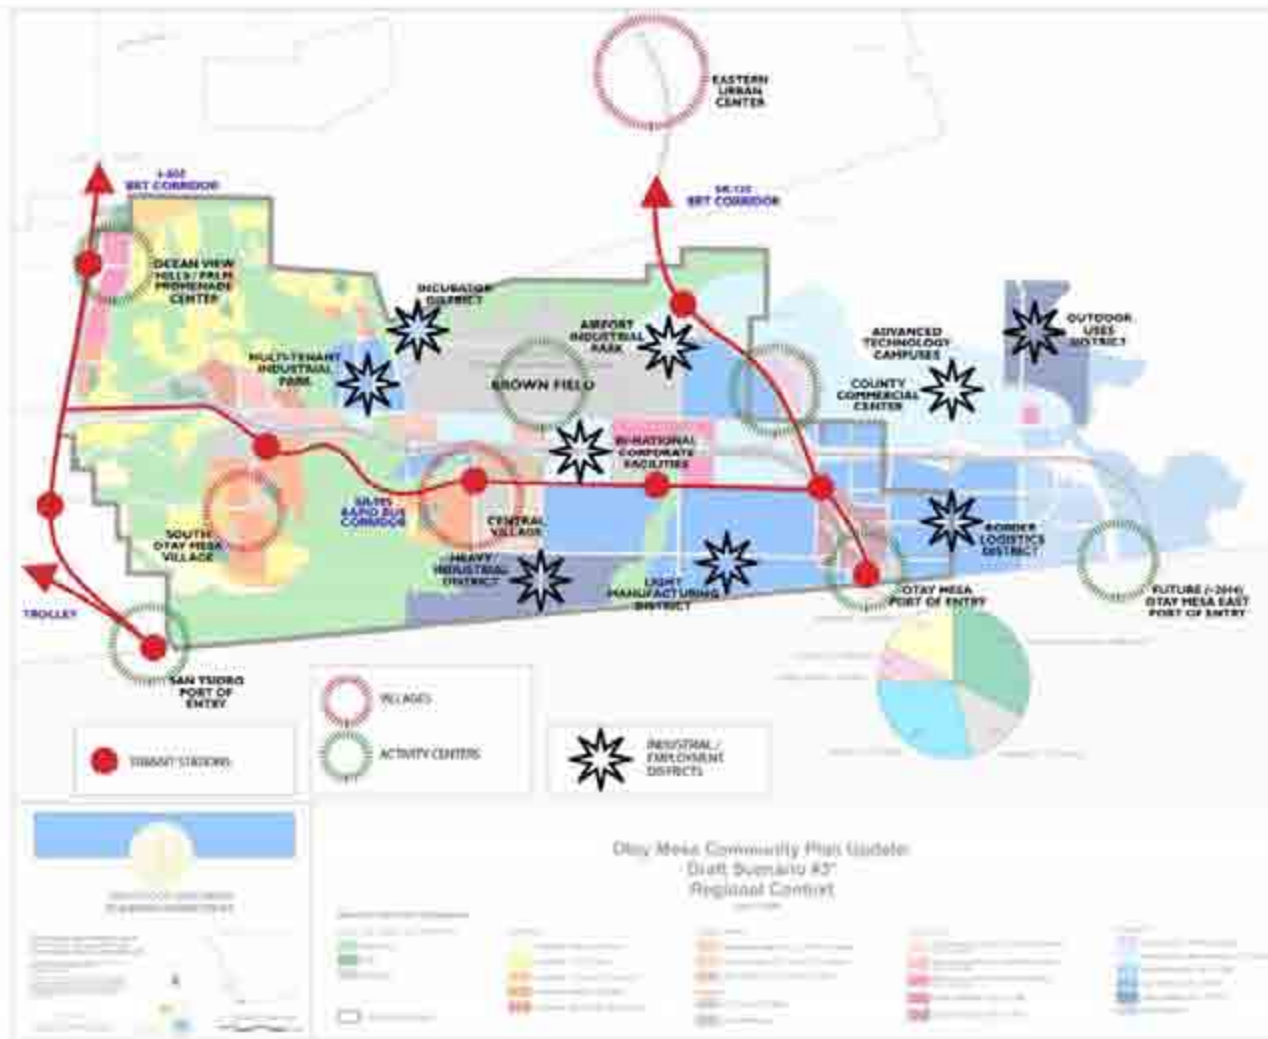

Recap of No Project Alternative

- This is essentially the adopted plan, but includes reasonably foreseeable impacts not currently reflected plan, as required by CEQA
- Land uses are highly segregated, relatively undifferentiated and rather monolithic
- West side is planned or developed with conventional suburban development and supporting commercial uses
- East side is planned for Industrial areas
- Industrial uses were intended to be for the exclusive use of industry—which includes labor intensive manufacturing, warehousing and distribution
- Office uses restricted to large corporate and government users

Scenario #3

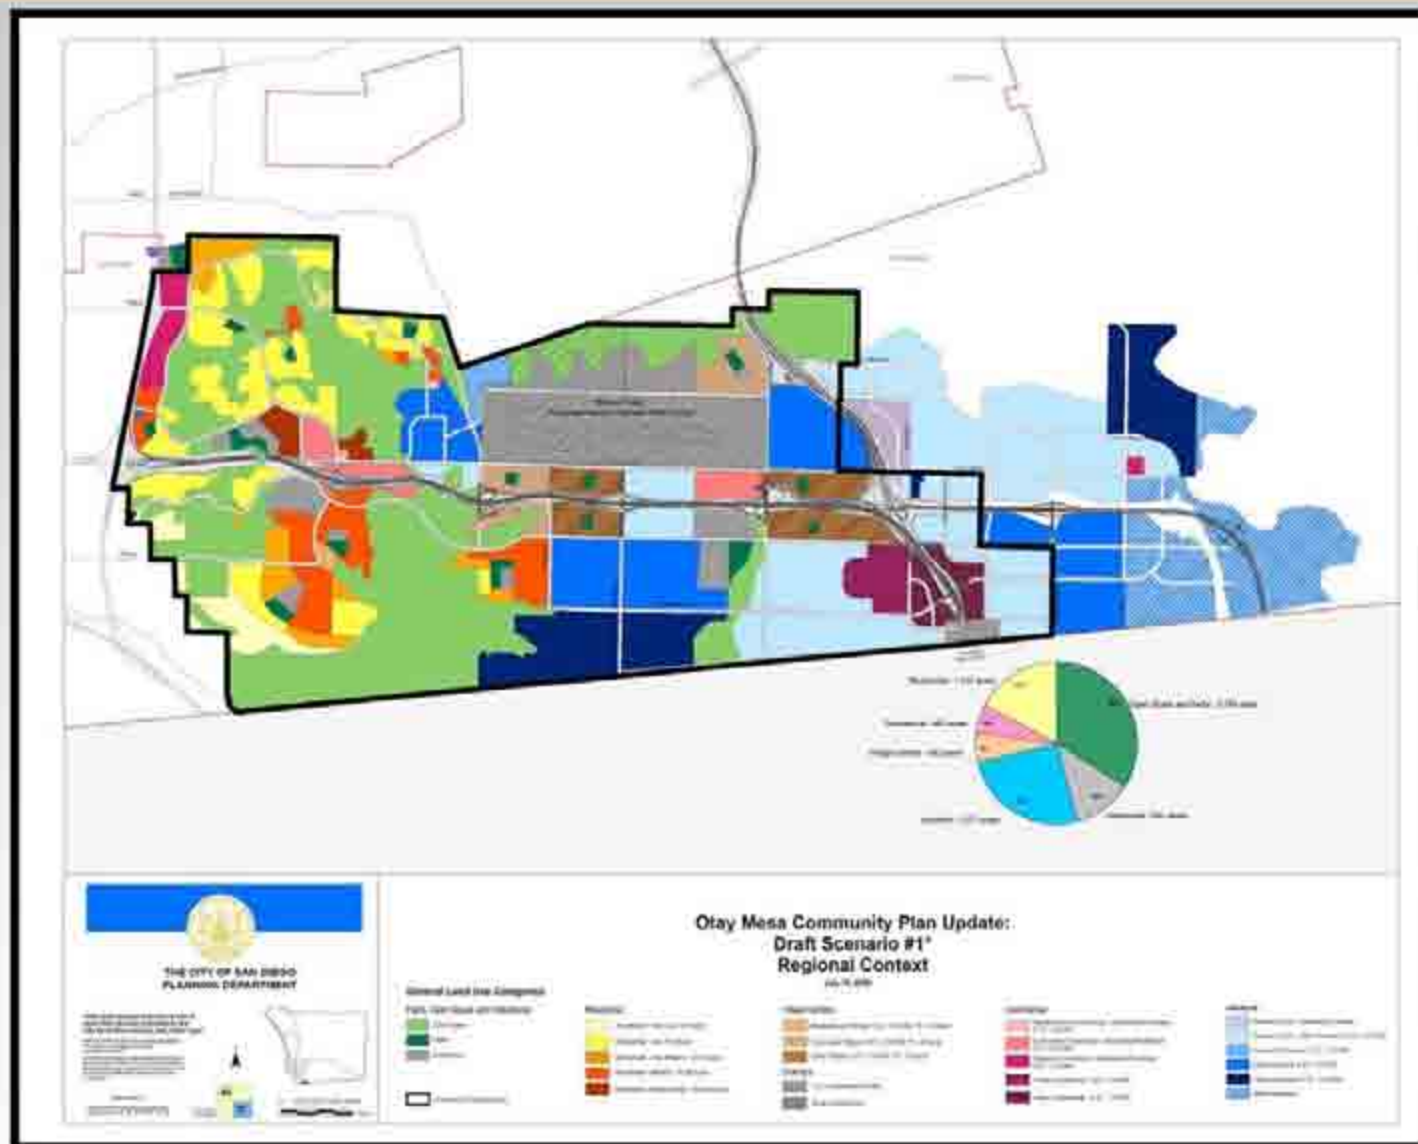

Recap of Scenario #3

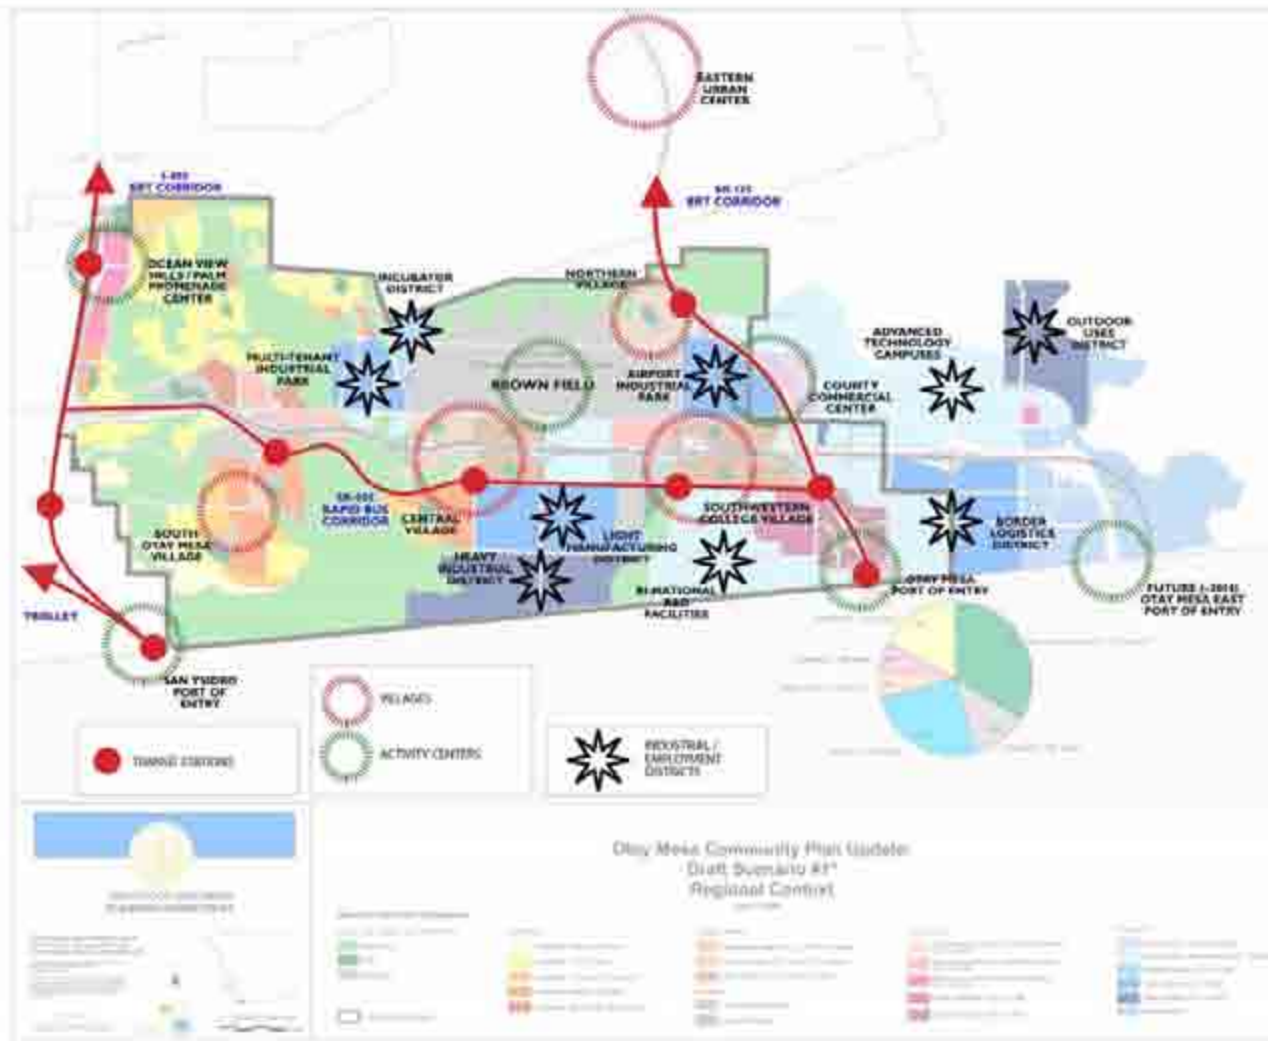

- Increases housing unit yield in southwestern residential areas
- Expands residential uses east within a relatively contained village area south of SR-905 and west of Britannia Boulevard
- Recaptures the 6,000 housing units lost through the designation of MHPA open space
- Seeks to enhance the image of the community along SR-905 with a corridor of flex space and corporate office users flanking the freeway
- Light Industrial remains the dominant industrial land use theme in this scenario
- Outdoor storage and heavy industry uses are encouraged to shift to the border in the vicinity of Britannia Boulevard, as in all other scenarios

Scenario #1

Scenario #1

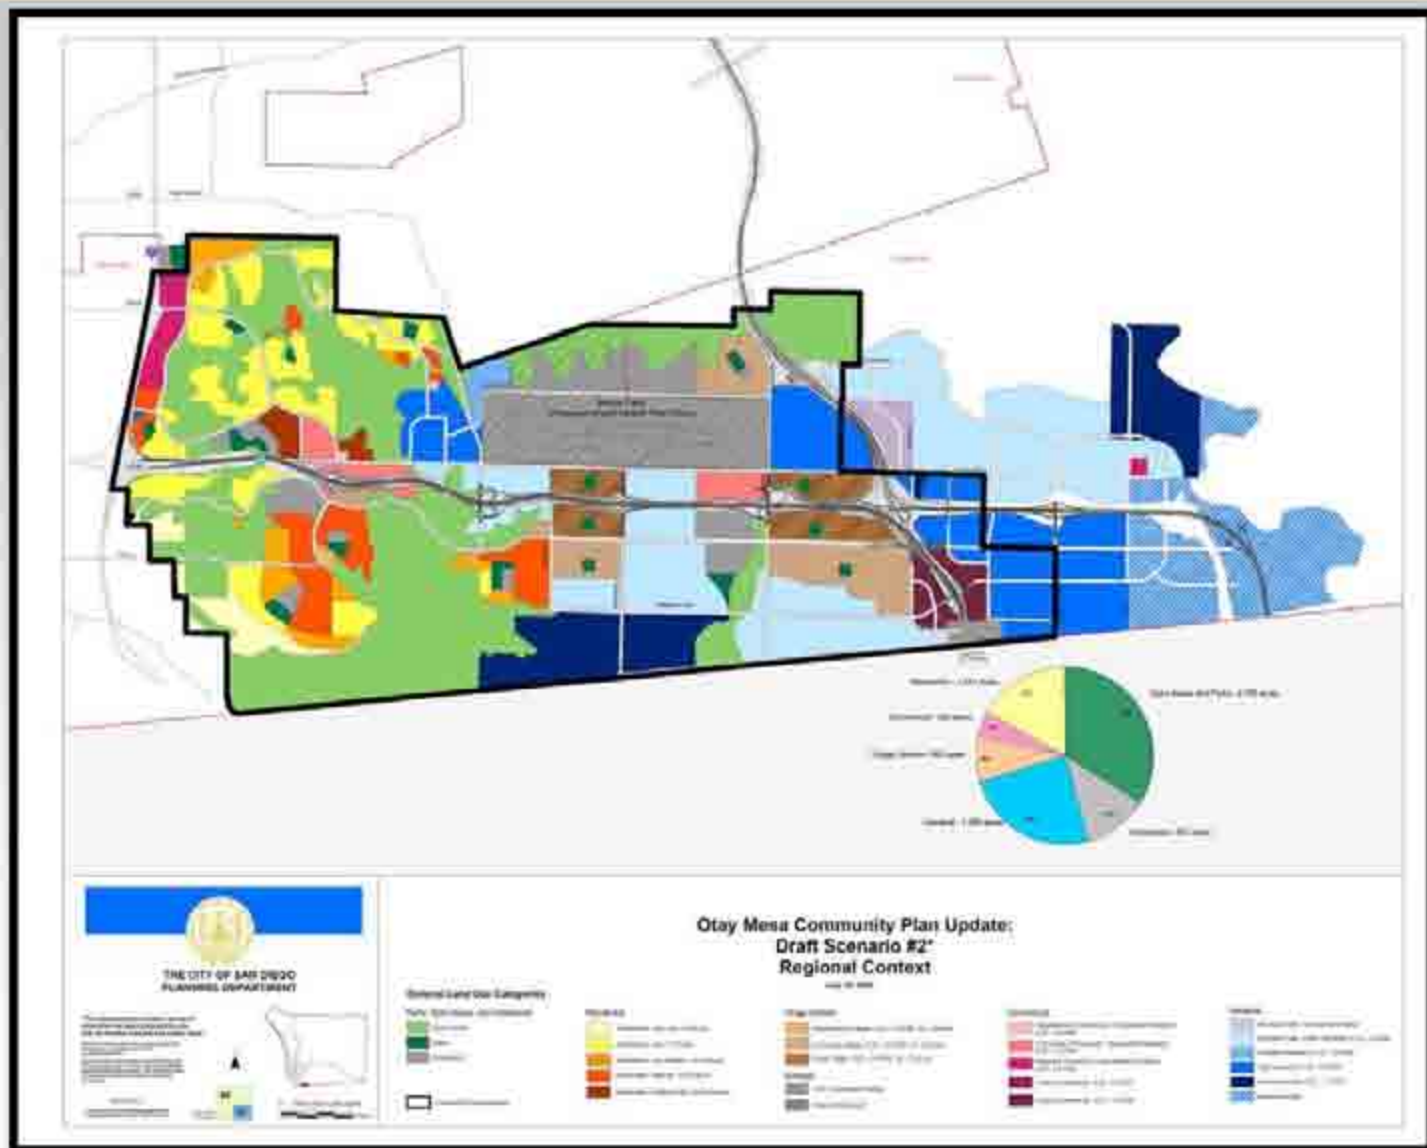

Recap of Scenario #1

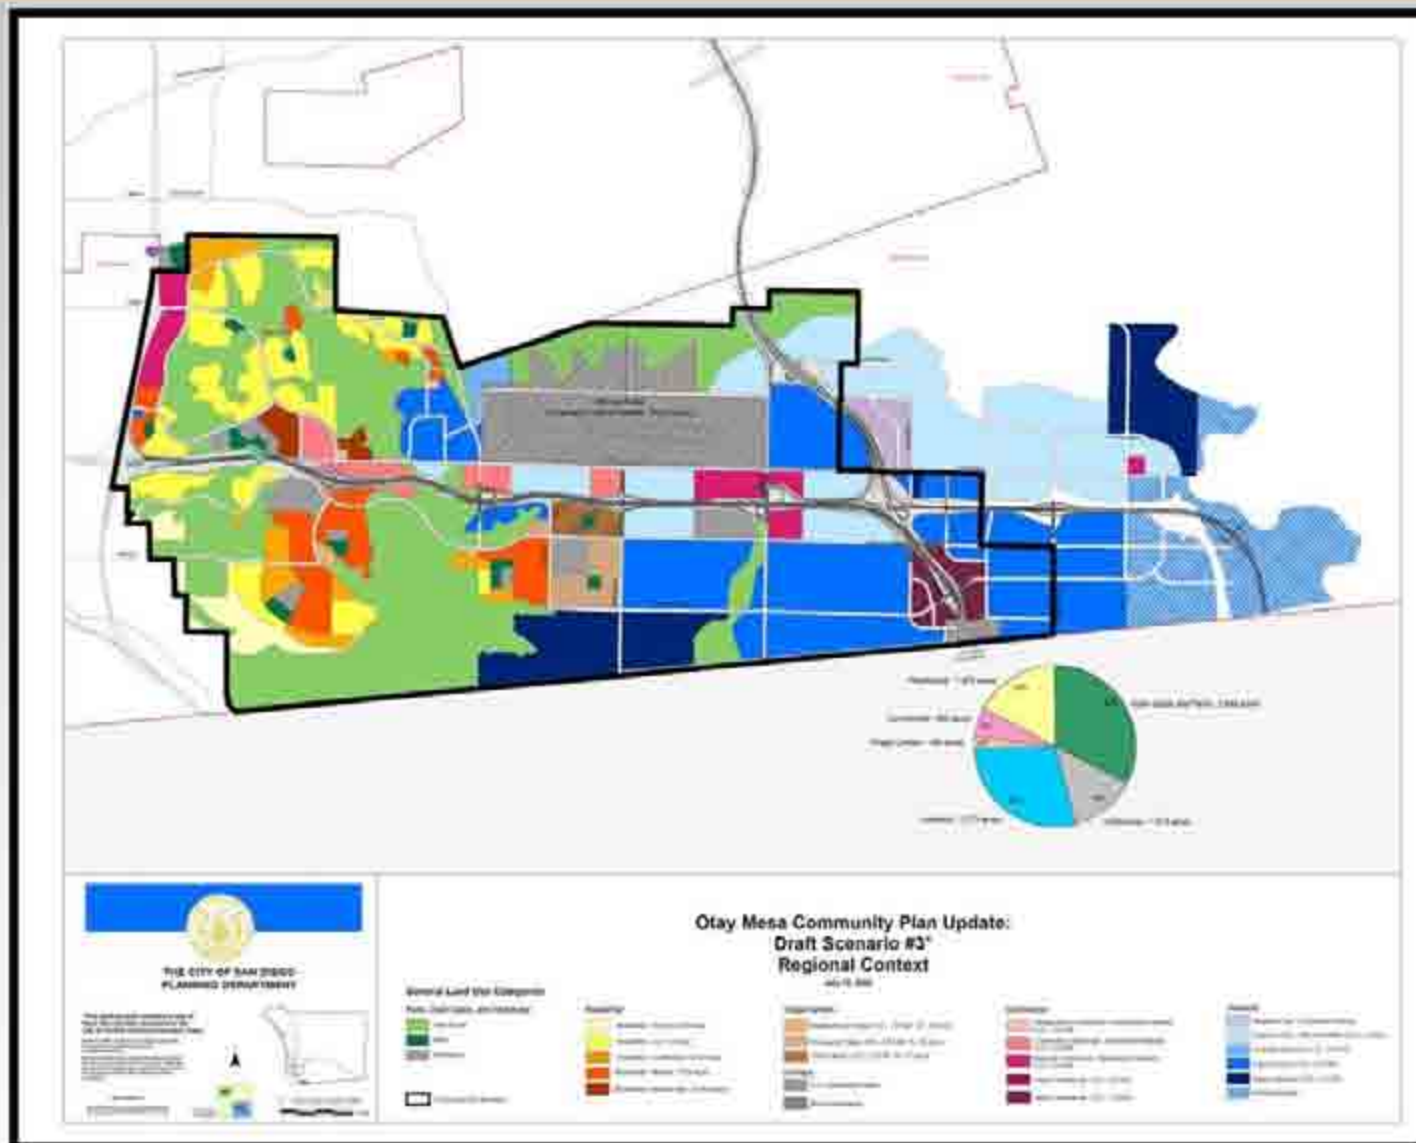

- Threads a one-half mile wide corridor of mixed use along the planned SR-905 freeway
- Density and intensity of uses are intended to be higher to support high frequency, rapid transit service across Otay Mesa
- Land uses within the mixed use corridor are intended to be distributed with a relatively fine grain to support walkability and the vibrancy of urban villages
- This plan results in two focused village areas roughly centered within the community, but remain segregated from industrial areas
- Business Park is the dominant industrial land use theme in this scenario

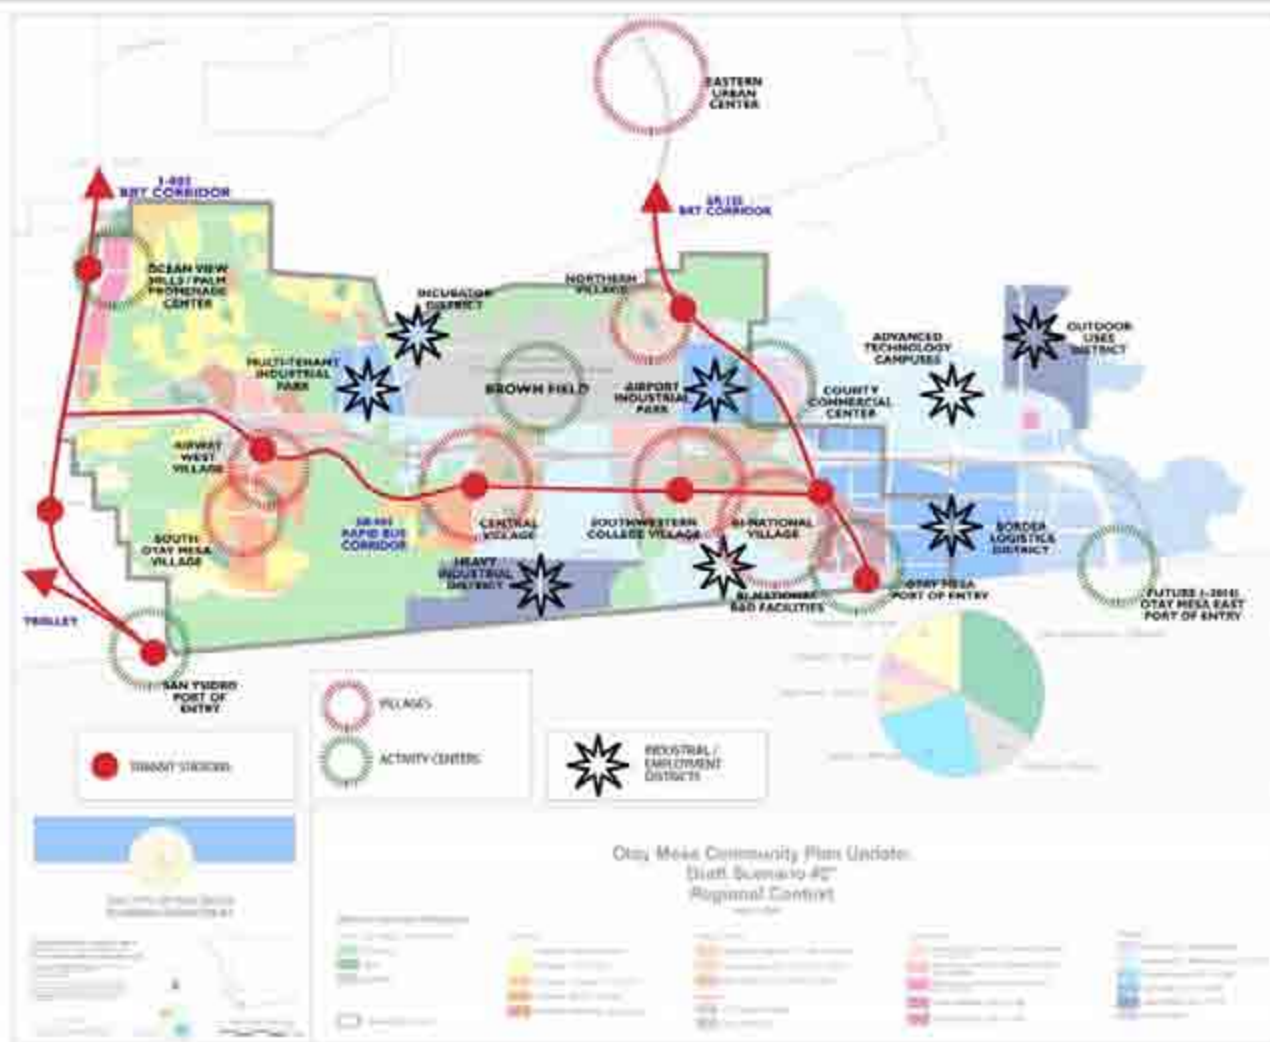

Scenario #2

Scenario #3

Scenario #2

Recap of Scenario #2

- Two substantial urban village centers are created by expanding village areas south of Airway Road and strengthening a cultural and business linkage to Tijuana, Mexico via the Otay Mesa Port of Entry
- Industrial areas are differentiated into four principal themes to create sanctuaries conducive to the types of primary industries within each themed industrial designation
- The distribution of industrial themes in this scenario is relatively balanced between the four industrial themes
- Principal warehousing, distribution, and outdoor uses are provided distinct sanctuaries

What Needs to Be Studied?

- Air Quality/Odor
- Airport
- Biological Resources
- Energy Conservation
- Geology/Soils
- Historical Resources
- Human Health/Public Safety/Hazardous Materials
- Hydrology/Water Quality
- Infrastructure Financing & Phasing
- Land Use Compatibility
- Natural Resources/Agriculture
- Noise
- Paleontological Resources
- Pedestrian Access
- Population & Housing
- Public Services
- Traffic/Circulation
- Truck Traffic
- Utilities
- Vernal Pools
- Visual Effects & Neighborhood Character
- Water Supply

Next Steps

Remaining Process
Otay Mesa Community Planning Group Input
Public & Stakeholder Input
Analytical (EIR)
Additional Public Input
Modify Scenarios

**Plan Scenario Selected by City Council &
Community Update is Completed**

Project Schedule

- **July 2006:** Revised Plan Scenarios Available
- **Summer 2006:** Analytical Evaluation of Scenarios Commences (EIR)
- **Spring 2007:** Draft Environmental Impact Report (EIR) Available
- **Fall 2007:** City Council Takes Final Action on the Community Plan Update

THE CITY OF SAN DIEGO

OTAY MESA COMMUNITY PLAN UPDATE

Scheduled City Council Action:
Fall 2007
